The online poker room, **EmpirePoker**, is now part of the world's largest poker room, advertising over 50,000 players online actively playing. This is because **Empire Poker** has merged its players and tables with Party Poker. This changed in February 2006, after Party Poker split off from the rest of their "skins" onto their own network. The quality of the games is excellent with lots of extremely loose games. Besides the many Texas Hold'em games Empire Poker offers great Seven Card Stud and Omaha, both high and high- low, everyday of the week.
